NENEN 527

The logo consists of the word "MARKANT" in a white, sans-serif, all-caps font, centered within a dark rectangular box with a thin white border.

MARKANT

Work your way everytime

The freedom to work when and where you want is becoming increasingly common. Our work and workplace are constantly changing due to technological innovations.

As a forward-thinking company, it's essential to focus not just on how many people the office can accommodate, but what tasks they will perform and how the space can best support those activities.

After all, these tasks are becoming increasingly diverse. Collaboration is becoming increasingly important, as is finding a quiet place for a task that requires concentration. As remote working becomes the norm, the role of the office is changing to that of an inspiring meeting place, a place used to develop new ideas and support new collaborations.

We've developed our Workways program with this in mind—offering a cohesive design with multiple workspaces for different tasks.

It's about the way you work

What do you need today?

Standing or sitting? Working alone or together?
Formal or informal? There is always a workspace that match your needs.

Sit-stand workstations

Our Workways workstations can be assembled in different ways, so that they fit perfectly into the office design and can be adjusted later.

Meeting

A meeting room: an ideal place to come together, make plans, exchange ideas, move forward together or improve each other. That deserves attention. Every meeting room is different. That is why we offer different options in our Workways collection. Which one suits your (new) meeting style?

Modular soft seating

In different compositions, the soft seat is suitable for different tasks. Thanks to the modular concept, the elements can be endlessly combined and expanded later.

Calma pods by Nurus

Quiet, acoustically balanced pods for private work or meetings.

Do the environment and yourself a favour.

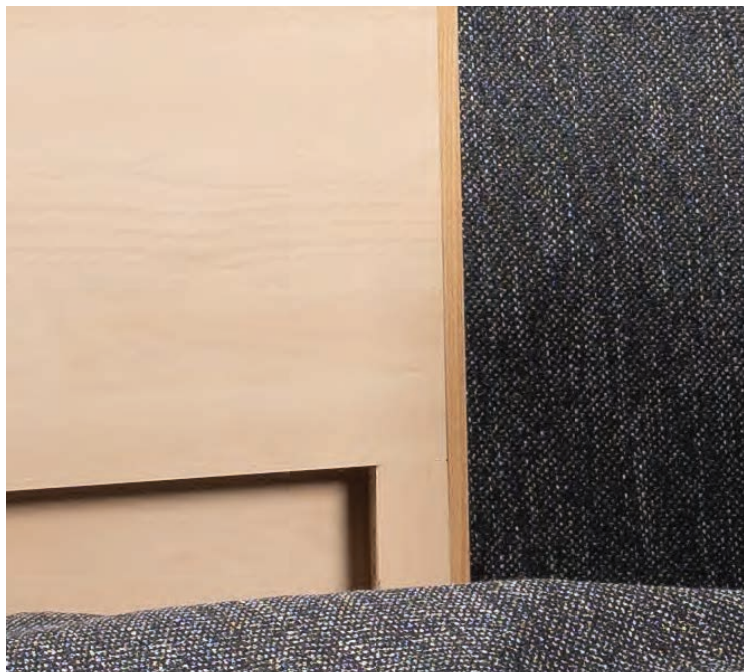

Recyclable wood and sawdust

Made from reusable materials—sawdust from our production and ash wood from Dutch sustainable forestry. We finish the ash wood in clear, white or black.

100% recyclable

Covers are available in fabrics made from recycled or circular materials.

Workways makes maximum use of sustainable materials.

Workways seating

Endless combination with various elements.

Mix and match shapes, fabrics, and colours.

Workways elements are easy to connect and disconnect. Playfully use the different backrests and fabric colours to create your unique piece of furniture. Combine with Cablets to make space for all your things.

Conference tables

Meet-up!

Perfect for quick stand-ups or slightly longer meetings, this high table offers the ideal height for standing discussions and is comfortable to use with stools and a built-in footrest.

Meet!

With its sleek design and sturdy four-leg base, the Meet! table is a versatile addition to any workspace. It serves as a functional piece for meetings, collaboration sessions, or even informal gatherings. With clean lines and a durable build, the Meet! table brings both style and practicality—meeting the diverse needs of the modern workplace.

Sit-stand table

Standing meetings are often shorter and more efficient—but sometimes you can't avoid a longer discussion. That's why it's so convenient that this meeting table can be easily lowered, allowing the conversation to continue in a seated position.

Sit-stand desks

All the benefits of a high-quality sit-stand desk—with a touch of luxury.

The modular Workways desks can be configured to suit your exact needs, whether it's a standalone single desk or a full workstation island with integrated storage. Anything is possible. Each frame offers a choice of leg style: foot, panel, or cabinet.

Since the cabinet is built using Workways Cablets, you have the freedom to customise the layout of your storage unit.

Even the desk's cable management is neatly tucked away inside the cabinet.

Workways Cabinets

Let your imagination run wild! With Workways Cablets, you can design a storage cabinet entirely to your liking.

Available in two sizes, the Cablets can be combined in multiple ways to create a single storage unit. We'll give you a few ideas to get started—the rest is up to you!

Workways Divider

This open shelving system lets you build a multifunctional piece of furniture. Combine it with drawers or cabinet blocks, add or remove shelves—the choice is yours!

**Workways is constructed entirely
from sustainable materials.**

Effortless Reuse of Modules.

Smartly designed, flexible in use

Workways is designed for easy assembly and disassembly. This not only allows you to adapt your setup as your needs change—extending the product's lifespan—but also ensures that all materials can be easily separated for recycling at the end of its lifecycle.
