ACKNOWLEDGEMENT

At Winya, we acknowledge the Traditional Owners and Custodians of the lands on which we work and we pay our respects to Indigenous Elders past, present and emerging. Winya operates on Ngunnawal, Larrakia, Kurna, Whadjuk Noongar, Turrbal & Yuggera, Kulin, Gadigal and Nipaluna lands. We recognise the diversity and complexity of these cultures and the vital contributions their traditions and cultures have made, and continue to make, to this country. It always was, and always will be Aboriginal land.

Winya means to 'Sit Now' in Wiradjuri

Winya Indigenous Commercial Furniture is a majority Indigenous owned and controlled business founded in 2015 by Kamilaroi Woman Debbie Barwick, the CEO of the NSW Indigenous Chamber of Commerce and Chairperson of the First Australians Chamber of Commerce, alongside a team of commercial furniture industry professionals. Winya was created with the goal of increasing Indigenous employment and economic inclusion in the Australian furniture industry.

We operate as a profit-for-purpose business. More than just hiring Indigenous employees, Winya partners with manufacturers to place trainees in factories, equipping them with skills to produce high-quality office furniture for government, corporate, and construction clients.

Winya supplies large-scale fit-outs for Australian Federal and State Government departments, including the ATO, Department of Defence, and Federal Courts, along with corporate clients like ANZ and CommBank. Through collaborations with major builders like JLL, Built, and Lendlease, Winya expands its Indigenous manufacturing employment nationwide. Our approach aligns with the Government's Indigenous Procurement Policy (IPP) and Reconciliation Action Plans, fostering growth in Indigenous communities.

Winya's commitment extends beyond furniture; we aim to set a new standard for business and social impact. Awarded by the United Nations for Leadership in Sustainable Development Goals (SDG), we show that corporate success and ethical responsibility are intrinsically linked.

Indigenous Engagement

The travelling kangaroo track symbolises Winya's ongoing movement toward empowering Indigenous communities. It reflects our commitment to creating pathways for employment and training, like our House Artist Program, where Indigenous artists collaborate to integrate cultural designs into our furniture. We focus on providing long-term career opportunities, fostering leadership, and ensuring cultural representation in every aspect of our work, from employment to product design.

Sustainability Practices

The hand print symbolises our responsibility to reduce our environmental footprint. It reflects our commitment to sustainable practices like sourcing eco-friendly materials, recycling, and waste conversion. For example, our take-back program repurposes old furniture, keeping it out of landfills. We also use recycled materials in production, supporting the circular economy. The hand print reminds us that our impact reflects our ongoing efforts toward environmental stewardship.

Product Design & Development

The "People and Place" symbol represents our collaborative approach to product design. It highlights our commitment to understanding the specific needs of clients and tailoring custom and standard furniture pieces accordingly. For example, we work with clients across sectors—like government and corporate offices—to create furniture solutions that fit their space requirements. This symbol reflects our dedication to creating pieces that are both practical and culturally significant.

Product Range

The Honey Ants symbol reflects our diligent approach to curating a diverse product range. Just as the honey ant works tirelessly to gather honey, we ensure every product, whether custom or standard, is carefully selected to meet our clients' needs. Our range of commercial furniture is designed to be functional, sustainable, and culturally inclusive. For instance, our ability to tailor pieces for large-scale office fit-outs demonstrates our commitment to delivering the right solution for every client.

Project Management

The eagle track symbolises strength, protection, and oversight throughout the project journey. Just as the eagle provides a wide perspective, our project management team ensures each step, from consultation to installation, runs smoothly. We offer end-to-end solutions for large-scale projects like government office fit-outs, ensuring timely delivery and attention to detail. This symbol reflects our commitment to guiding each project with precision and meeting our clients' needs with high-quality service.

TEAM SYNC TASK CHAIR

KEY FEATURES

- Self Weighted Sync with Seat Slide,
- Adjustable Lumbar,
- Made for severe Heavy Duty Use
- 135kg weight rating
- Super Easy to Adjust & Operate
